

Introducing The New Recoules- Quackenbush® Mini C-Clamp Drill

The New Recoules-Quackenbush Mini C-Clamp positive feed drill replaces difficult-access manual drilling tools.

- Increase **QUALITY** by replacing manual drilling with positive feed self-clamping drilling.
- **ACCESS** areas previously impossible to reach, such as ribs or spars: The Mini C-Clamp is less than 12mm | 1/2" side to center, and boasts a 125mm | 5" head height for a 1" stroke.
Capacity measures 4mm | 5/32" - 6.35mm | 1/4" in aluminum and titanium.
- Improve **ERGONOMICS** by removing drilling forces from the operator.
- The Mini C-Clamp is your complete drilling **SOLUTION** with clamp and cutter.
- **SIMPLE-TO-LOCATE** using pilot on cutter, pilot on clamp, or OD of bushing.
- **PRECISION** ground bushing maintains normality and guides the cutter for precision drilling every time.
- Built with a standard stroke and reach, or can be **CUSTOMIZED** to suit your needs.
